

## HUNTED II

I lay in the hospital for days. I can't recall the time that I shot my beloved.

Was it Cameran or David Ryan who pulled the trigger?

I thought the lack of trust between us was eminent.

I don't want to even look at that fucking gun ever again...

The doctors told me I had some type of parasite consuming my inner body.

If they don't perform the operation to remove it within 5 days, I'll be history.
